Subject: Interim Draft due Friday, TCE: RE: TCE Team Meeting
Attachments: 2 Risk Evaluation Schedule_52119.docx; TCE Risk Evaluation (Draft)5-24-19@248pm.docx

Good Morning TCE Team!

I hope you had a relaxing long weekend. I hate to send e-mail after e-mail so I will keep this one short and send out another more detailed note later. I am taking sick leave today so I am trying to send out guidance. (Now that I am re-reading, this e-mail isn't short, oh well!). I will send a summary of the to do items from the meetings I had with the discipline teams last week. We do need to get the risk tables for engineering and exposure into the document, with language around it, by Friday, at a minimum.

Attached is the new schedule for the first ten chemicals (please keep internal to the Agency). Interagency review begins August 9th for TCE with a final finished publication date of March 2020. I don't have further input from management on any revised date for the first branch chief review so I will work for this week, Friday, for the first draft until and unless I get further guidance. The conversations we had last week were useful. I will need help to finish the document up and appreciate your assistance. As you know, we will most likely turn in an interim draft on Friday with a list of items still to do and move forward from there. We will get as far as we can.

I have also attached a version of the document that I downloaded from SP on Friday, still in track changes, in case we have a SP melt down. I'd like to discuss some SP housekeeping at our team meeting on Wednesday. As the document gets larger, we will need some rules around who can edit the document and when. Some of you on the team already have more experience with this than I do from work on the other chemicals so I need your input, please. For now, you can make your comments in the SP version, if possible, until further guidance is provided.

That is it for the moment. Stay posted later this morning as I try to put together something coherent and then go take another nap.

Thanks,

Heidi

Heidi Bethel, Ph.D.

Subject: TCE Team Meeting

When: Wednesday, May 29, 2019 10:00 AM-11:00 AM (UTC-05:00) Eastern Time (US & Canada).

Where: DCRoomEast6349A

Sharepoint site has been updated with the latest version of the Risk Evaluation Document. I am working in the Sharepoint version. The folder also contains draft Word copies of the Scope, PF, 2014 RA for TCE, PV29 Draft, 1,4-Dioxane draft, for your reference.

VERSION 512+ of the TCE Document can be found here:
